

Protocol List

Objective:

The table shows all the clinical trial studies (i.e. protocols) for a selected sponsor.

Navigation:

The screenshot shows a table of clinical trial protocols. A red box highlights the first row. Numbered callouts point to specific elements:

- 1**: Points to a 'details' link in the first row.
- 2**: Points to a three-dot menu icon at the top right of the table.
- 3**: Points to the 'Phase' column header, which has a red border.
- 4**: Points to the 'APPLY' button in the Phase Filter pane.
- 5**: Points to the 'CLEAR' button in the Phase Filter pane.
- 6**: Points to the 'Rows per page' dropdown at the bottom right of the table.

Annotations with dashed boxes provide additional context:

- Top left: 'This is the filter pane which can be opened on clicking the filter icon on the column headers. To filter on the column select items from the list.'
- Top right: 'Clicking on this will open the column filter pane. This pane is used to show or hide the desired columns'
- Middle left: 'Clicking on this will close the filter pane.'
- Middle right: 'After selecting items from the list click on this to set the filter.'
- Bottom right: 'Clicking on this will clear any filters set on the column.'

Rows per page: 10 | 1 of 46

Interpretation

The table shows the following details for every protocol

- Protocol Name
- NCT
- Protocol finalization date
- Therapeutic Area
- Clinical Indication
- Phase
- Site Count
- Planned Site Count
- Enrolment count
- Planned enrolment count
- Enrolment status

- CTG status
- Arm Count
- Study Type
- Allocation
- Intervention Model
- Masking

Any filters set on this table will have a cascading effect on all the other widgets. All the other widgets will show data for only the protocols that are shown in this table. To reset to default, clear all filters applied.
